

THE QUICK GUIDE TO

HURDLES

Volunteer Roles and Responsibilities

1. Chief Marshal: Set hurdle height and position
2. Assist chief hurdle marshal

- 1 Set Hurdles up in each lane at set height and distance apart for each age group.
- 2 Ensure Hurdle is set up so it falls in the same direction athletes are running.
- 3 Help stack hurdles on Trailer at the end of the event.

A VOLUNTEERS GUIDE TO THE HURDLES

Run in lanes, hurdle events require competitors to negotiate small barriers over varying distances, depending upon the age of the competitor. Hurdles are knocked down easily if touched, which allows the athlete to continue the race even if a competitor knocks them. The finishing order is determined by time.

ORGANISING THE EVENT

- 1 The feet of the hurdle should be placed on the track in line with the respective marking (See specifications below) at right angles to the cross-bar.
- 2 Competitors can generally practice their start and hurdle clearance over the first 2 hurdle flights.
- 3 All races should be run in lanes, with each competitor keeping to their own lane throughout the race.

Never allow the athletes to go over hurdles in the wrong direction.

SAFETY

- 1 Ensure that running track is free of ruts, foreign objects, and indentations prior to commencement of training, practices, and/or races.
- 2 Ensure running track surface is not slippery due to rain, dew, or other similar circumstance.
- 3 Check all hurdles regularly for the following, and repair as identified.
 - Sharp or protruding edges.
 - Sliding mechanism functionality.
 - Ball-bearings used to hold the hurdle height in place.

DISQUALIFICATION

- Disqualification can occur if:
- In the opinion of the Track Referee, a competitor deliberately knocks down a hurdle.
 - A competitor interferes or impedes another athlete's performance.
 - A competitor goes under or around a hurdle
 - A competitor trails their foot around the side of a hurdle
 - A competitor goes over a hurdle not in their own lane

TYPES OF HURDLE

Knowing which way the hurdle falls is important when setting them up safely. The hurdle should always fall or fold in the same direction the competitor is running.

There are two types of hurdles, and while they look the same, it is important to note that they fold differently.

Most Centres will use the top hurdles (See picture on right), however it is important to note that some may use the below hurdles, particularly in older age groups.

Hurdles have stripes/marks on one side. These stripes/markings should always face the athlete.

Hurdle above folds toward the long legs.
Hurdle below folds away from the long legs.

These guides are intended as a template for the conduct of events only, noting that individual Centres will have varying operating procedures based largely on available resources, including personnel and equipment.
